ABOUT SUPERIOR PLASTIC PRODUCTS

Superior is a quality manufacturer and supplier of Vinyl Railing, Fencing and Lawn & Garden Products. With over 30 years of design and manufacturing expertise, Superior offers a wide variety of products and styles designed to maximize your enjoyment, security, and privacy.

Superior has tapped into a wealth of experience from a diverse and dedicated team that blends classic designs with modern materials to provide safe and architecturally pleasing solutions. From single family homes to multi-family complexes and condominiums, Superior represents innovation and sound designs for construction projects all over the world.

MANUFACTURING & SO MUCH MORE

PVC EXTRUSION

Our extrusion facility manufactures all the various vinyl profiles we stock using a co-extrusion process; which produces consistent, and quality results on every part while also allowing us to recycle most of the vinyl material we produce.

PVC BLOW MOLDING

Using our own extruded parts, we mold them into turned vinyl posts and balusters of varying sizes, and shapes. We then inspect each part for compliance with our high standard of quality.

PVC FABRICATION & CNC ROUTING

Utilizing custom built CNC routers; purpose built to cut precise holes in our products. We are able to create quality connections between parts in many of our products.

MACHINING & TOOLING

We have a team of experienced professional machinists who together with their knowledge, and ingenuity create and maintain the machines, and tooling required to manufacture the products that Superior offers to its customers.

3000 SERIES VINYL RAILING

ADA SECONDARY HANDRAIL

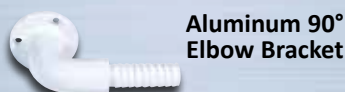

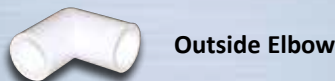

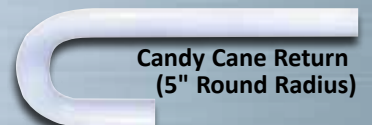

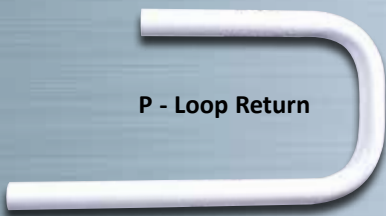

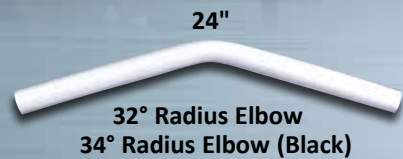

CODE APPROVED • HANDICAP FRIENDLY

Superior Systems Secondary Handrail is an essential component of a stair railing system for both safety and code compliance. It provides a continuous graspable surface that can be used when walking up or down stairs. ADA Handrail is typically required when four or more stair risers are present. Easy to install without welding or painting. Meets ADA Code requirements.
